

11th Securitisation Summit 2023

Securitisation: Global gateway to investing in India's financial sector

19th May 2023

Novotel – Mumbai International Airport

About the event

Banks and non-banking finance companies are showing ever-more complementarity, making the most of their respective capabilities. While bank finance to NBFCs is on a record high, there are several ways in which banks extend their outreach through NBFCs - securitisation, direct assignments, loan sourcing, co-lending, etc. Securitisation markets have clearly matured to grow beyond the priority-sector lending confines, with new asset classes attracting yield-searching investors. There is a clearly surging international interest in India's financial markets - securitisation seems to be the key to that.

India Securitisation Summit, by Indian Securitisation Foundation and Vinod Kothari Consultants, is unquestionably the most sought-after Industry forum. We are happy to present the 11th edition of the Summit. As every year, the Summit shall bring together all relevant stakeholders - issuers, investors, consultants, analysts, rating agencies, market markers, regulators, law firms, and all else who matter.

The 2021 Directions brought the Indian regulatory framework closer to the rest of the world in many ways, in particular, on capital requirements. As India continues to incite interest of global investors, the theme of this year's Summit, aptly, is on globalisation of India's securitisation market.

Program Outline

Session 1: Indian securitisation market: aligning with the global markets

- Overview of securitisation activity across the globe
- Securitisation and the world of Fintech: Blockchain, AI and ML
- Co-lending, loan sourcing, direct assignments: Various shades of bank-non-bank partnering. Is this the new normal for achieving inclusive finance?
- Is the market innovating or riding on the waves of traditional structures?
- New entrants in the market: investor classes, asset classes, structures etc.

Session 3: Sell side issues

- Deciding between securitisation, DA and co-lending - the motivations and demotivations
- Accounting de-recognition - are they worries of the past?
- Capital relief under securitisation - is it a myth?
- Securitisation of infrastructure assets - is there any motivation to the originators?

Session 2: Law and regulation: to enable, shape and strengthen

- Are there issues in the SSA or TLE Directions?
- Securitisation and IFSC: legal, regulatory and taxation clarity
- Scope of 'synthetic securitisation' in light of the Digital Lending Guidelines
- Securitisation and P2P Platforms

Session 4: Buy side issues

- Why are mutual funds still shying away from the market?
- FPI investments in the Indian securitisation market
- How do banks compare securitisation with DAs and co-lending?
- Long term investments in the Indian securitisation market: how much longer before it becomes a reality?
- Insurance companies and other long-term investors: a pipe dream or dream that comes true?

Partnership Opportunities
