Why this workshop?

SEBI 13th July [Circular](#) has given requisite details and timelines for filing for the various items in Schedule III, Part A, Para A and Para.B.

The amendments are applicable from 14th July, 2023 and to an extent, these amendments require companies to test for previous events which still remain unpublished, to the extent they qualify under the new quantitative criteria.

In the meantime, SEBI came out with timeline for Reg 30A disclosures for SHAs, and other similar agreements which may potentially have the impact on management or control of the listed entity, or may impose restrictions or liabilities. Almost every listed entity will have to do a soul-search to see if there are some pacts or agreements that may warrant disclosure, by 31st July, for onward uploading by 14th August.

In this workshop, we intend to cover all the major items covered by the two lists in Schedule III.A.

And of course, this will be a participative event with loads of interaction. We learn, and we hope participants learn too.
