## Why this Webinar?

On February 15, 2025, the Industry Standards Forum, under the aegis of the Stock Exchanges and in consultation with SEBI, has formulated industry standards, prescribing detailed disclosure list for RPTs at the time of being placed before the audit committee and shareholders for approval, in order to ensure uniformity and enhanced transparency. Actionables include substantial compliance work pre-approvals, need to understand the information requirements, and the specific responsibilities of the management and the Audit Committee.

Some of the conundrums arising are:

- Whether these Standards result in any change for the RPT approval regime?
  - Whether the Standards will apply only to approvals taken after April 1, 2025 or transactions undertaken after the said date?
  - Whether it will have an impact on material RPTs already approved in AGM 2024 that will continue till AGM 2025?
  - What are the categories of disclosures prescribed in the Standards?
  - Difference between Comprehensive, Limited and Minimum Disclosures?
- ... and many more.
