## Why this Webinar?

The IBC Amendment Bill, 2026, approved by the Lok Sabha on 30th March, 2026 is an extension of the previously introduced Bill in August, 2025, which was later modified basis report of the Select Committee in December, 2025. **Further, draft Regulations suggested in the IBBI Committee report will also pave the way for the amendments in IBC.**

The bill once passed, is expected to bring clarity on several long-standing issues while also raising important interpretational and implementation questions.

- Resolution of the *Rainbow papers* issue and treatment of statutory dues under this framework
- Impact of *Vidarbha* position on admission stage discretion under the amended regime.
- Shift from stakeholder consultation to CoC supervision in liquidation proceeding
- Revised look back periods and their impact on avoidance transactions.
- Omission of fast-track CIRP provisions.
- Introduction of creditor-led/non-adjudicatory processes and their practical impact.
- Framework for group insolvency and multi-entry resolution.  
...and many more
